### **Kleen Car announces Holiday Buffing pad sale**

New Milford, NJ. – December 1, 2007 - For the Holiday season, we are having a blow out sale on our SCORE buffing pads. With savings of 45% or more on these great pads, there is no reason not to try a few yourselves, or to buy for a detailer on your list.

These 7 inch SCORE cross cut pads now have a Velcro gluing system that is GUARANTEED not to peel off. We are so confident that you will not have the Velcro peel off; we will replace the pad at no charge. These pads have a recessed back for better pad centering and a cross cut or “scoring” system to allow excess product to sit in the grooved of the buffing pad. This helps the pad not get clogged up.

Our foam choice for each grade of pad is specific for whatever kind of buffing job is at hand. It's a perfect compliment to the other pads and a system that many other pad companies do not offer.

Also the 7 inch size of the pad is perfect for use with an orbital buffer as well as a high speed buffer. These pads can be switched from one buffer to the other. There is no need to purchase separate pads for the different buffing machines. Of course this would save you money even if we were not having a sale!

Remember we also have KITS available with these great pads included and also for the Holiday season, if you purchase \$75 of any of our great products or equipment, we will include our Buffing with Confidence DVD as an added bonus. This is a \$50 value by itself and we know it will teach you some great stuff.

**Kleen Car is your #1 resource for Optimum products!**  
We are able to offer the lowest prices because of our close relationship with Optimum.
