Therma Kleen steam machine video is now available

New Milford, NJ., February 21, 2008 - We hope you have had a chance to look at the pictures and description of our NEW Therma Kleen Steam machine. In case you missed some of our last press release on this machine, here is a bit of what we had to say.....

Finally a 110 volt vapor steam machine that performs like 220 volt or propane! This is THE MOST powerful steamer you can buy that runs on 110 volts....and is made in the USA! A 340 degree operating temperature at 100PSI which is the highest in the industry!

Need a better steamer? Need it to run all day long? Do you want better heat and temperature? Are you working in a drought area, or where washing a car the traditional way just can't be done? Looking for a superior steam machine that will clean the inside of a vehicle to perfection, and also

WASH the outside? READ ON

Not only will this machine make quick work of the interior of a vehicle.....This is THE ONLY 110 volt steam machine that can be used on the exterior of the vehicle. YES...you read this correctly.....this machine can be used on engines, wheels, and.....to wash the exterior of the car! This machine will run ALL DAY LONG!

Now instead of reading on....We can show you how this machine works and why it is the best steam machine available. We now have a very comprehensive video that can be viewed in 12 different segments. We invite you to take a look at this amazing steamer and see for yourself. Take your time. We hope you enjoy it!

Again, a 36 month lease plan is available. Please call us for details and pricing.

Kleen Car is your #1 resource for Optimum products!

We are able to offer the lowest prices because of our close relationship with Optimum.
