Attention To Details has updated the remainder of their 2007 events calendar

July 18, 2007 Boise Idaho – Attention To Details has updated the remainder of their 2007 events calendar.

“We have a very busy final two quarters of 2007” stated Renny Doyle, the founder of Attention To Details. “In addition, we have many training dates arranged with several already booked and we have industry events scheduled from coast-to-coast”, explained Doyle.

One of the newest items on the Attention To Details events page is their 2-day detailing clinic. In late 2006 Attention To Details stopped offering small group detail trainings and decided to concentrate on private, one-on-one trainings. Renny added. “I was very excited to transition to 100% private instruction as this allowed us the time it takes to work with students on real skills that will separate them from their competition when they return home. But in recent months we have had so many requests by those wishing to work with us on technical skills at an affordable rate that we decided to offer a very limited number of detailing clinics starting this September”.

In addition, Attention To Details will be taking part in many national and international events that are all viewable on their events page.
