Annual Glare Polish Sale. 2 Bottles of Glare Polish for \$54.95

Pittsburgh, PA. – January 06, 2007 - Glare Polish will last up to 5 years! Check out our Glare Polish Dept and our Glare Money Savings Packages Dept. (Click on Glare Image)

GLARE is used exclusively by L.A.P.D. (police cars and helicopters), Metropolitan Transit Authority (public transportation for city of Los Angeles including cars, trucks, trains, and buses, Harley-Davidson motorcycles, Mazda, Ford, Porsche, Audi, BMW, American Honda Motor Co Inc, Honda North America Motor corp, Boeing Aircraft Co., US Navy, US Air Force, numerous Airplane and Boat companies, just to name a few.

Glare Polish is an exclusive polish that flows like liquid glass, penetrating and sealing your car's paint surface leaving an ultra high gloss finish. Blending into the paint rather than just remaining on the surface, Glare Polish fills in tiny valleys of pinpoint paint pores, hairline cracks and crevices, smoothing out spots where grime clings and corrosion begins, while leaving a glassy, silky smooth, but rock hard finish.

Glare Polish is impervious to harsh detergents. It will not break down or wear off under constant cleaning. Glare Paint Sealant uses Glassplexin to bond to individual paint globules. As hardeners dry,

they cure and form an integrated, super hard protective glass-like coating that will not crack, peel, fall off or fade. Eliminate waxing forever, create a wet-look, repels foreign matters, blocks out corrosion, too. Also protects paint from sun, UV rays, acid rain, road tar, road salts, hard water, bird droppings, salt water, eggs, Coca Cola, brake fluids, most spray paints used in vandalism, paint strippers, mercuric acid. Contains no silicones.

Can be used on cars, aircraft, motorcycles, and boats. The best paint protectant we have seen in 20 years! Superb results on all colors including red and black vehicles. You can get several applications per 12-ounce bottle. AMAZING, you have to try it to believe the results. Protection lasts up to five years! Great for show cars and classic cars. Car collectors love this product. You cannot find this product from any other United States dealer on the Internet except for Detail King.

Glare has a pleasant Vanilla Scent. This product is clear coat safe and formulated for clear coat paints. This product would be used in place of wax, no need to strip previous protection off before applying, can be applied by hand.

Because of territorial alliances we cannot sell Glare Products to Mexico, Puerto Rico, England, Australia, New Zealand, and all of Asia.

Reg \$34.95, on sale now: 2 bottles for only \$54.95!
